

These charts summarize the listings and exemptions under CITES for cacti, orchids, and other listed plant species. The exempted plant material does not require issuance of permits for international trade. Please note the manufactured derivatives of ginseng, goldenseal, kutki, and spikenard are also exempted (see specific listings in pages 27 and 32).

CACTACEAE: All living or dead plants in Cactaceae are listed under CITES and require permits or certificates, including artificially propagated plants, hybrids, plant parts, and plant derivatives, *except* for the materials categorically exempted below and those taxa excluded from the family listing (see page 28).

MATERIAL	Appendix II		Appendix I	
	EXEMPT	LISTED	EXEMPT (*Specimen treated as Appendix II)	LISTED
Seeds or pollen (including pollinia)	All (except Mexican species originating from Mexico)	Mexican species from Mexico	*Artificially propagated hybrid of unannotated species or taxon (except Mexican species originating from Mexico)	All others
Cut flowers	Artificially propagated	Wild origin	*Artificially propagated hybrid of unannotated species or taxon	All others
Separate stem joints/pads and their parts and derivatives	<i>Opuntia</i> subgenus <i>Opuntia</i> from artificially propagated or naturalized populations	All others	None	All
Fruit (including fruit parts or fruit derivatives)	Artificially propagated or from naturalized populations	All others	None	All
Seedling or tissue culture in vitro in solid or liquid media transported in sterile containers	All	None	*Artificially propagated hybrid of unannotated species or taxon	All others

ORCHIDACEAE: All living or dead plants in Orchidaceae are listed under CITES and require permits or certificates, including artificially propagated plants, hybrids, plant parts, and plant derivatives, *except* for the materials categorically exempted below.

MATERIAL	Appendix II		Appendix I	
	EXEMPT	LISTED	EXEMPT (*Specimen treated as Appendix II)	LISTED
Seeds or pollen (including pollinia)	All	None	*Artificially propagated hybrid of unannotated species or taxon	All others
Cut flowers	Artificially propagated	Wild origin	*Artificially propagated hybrid of unannotated species or taxon	All others
Fruit (including fruit parts or fruit derivatives)	<i>Vanilla</i> spp. if artificially propagated	All others	None	All
Seedling or tissue culture in vitro in solid or liquid media transported in sterile containers	All	None	Artificially propagated	All others

REMAINING CITES LISTED PLANTS: All living or dead plants listed under CITES require permits or certificates, including artificially propagated plants, hybrids, plant parts, and plant derivatives, *except* for the materials categorically exempted below and the exempted products and taxa as described in the specifically annotated CITES listings.

MATERIAL	Appendix II		Appendix I	
	EXEMPT	LISTED	EXEMPT (*Specimen treated as Appendix II)	LISTED
Seeds, spores, or pollen (including pollinia)	All	None	*Artificially propagated hybrid of unannotated species or taxon	All others
Cut flowers	Artificially propagated	Wild origin	*Artificially propagated hybrid of unannotated species or taxon	All others
Seedling or tissue culture in vitro in solid or liquid media transported in sterile containers	All	None	*Artificially propagated hybrid of unannotated species or taxon	All others
